

# LEGO COLOR & SET EVOLUTION

Variation in color of Lego bricks have increased exponentially over the past 40 years, along with the increase in Lego set variation. The bar graph (top) shows the composition of lego parts in each color adjusted for the number of sets available at each given year. The points (bottom) shows the number of parts per set in a given year for select timepoints. More recent years have also seen a rise in Lego sets based on popular shows (e.g., *Star Wars*, *Lord of The Rings*, *Hobbit*, *Toy Story*)
